POSITION Project leader and supervisor at the Royal Institute of Technology (KTH), Stockholm

EDUCATION AND WORK EXPERIENCE

Peter K. M. Szakálos got his M.Sc.-degree in Materials Science at the Royal Institute of Technology (KTH), Stockholm, 1990. He worked as a research engineer at the Swedish Institute for Metals Research (later KIMAB) with corrosion research projects and corrosion consulting during 1990- 2001 and as a senior specialist during 2001-2005. He got his Ph. D. -degree in Corrosion Science at the Royal Institute of Technology, 2004. In 2006 he started his own consulting company “Szakalos Materials Science AB” and begun to work part-time at KTH at his current position at the division of Surface and Corrosion Science as a project leader and supervisor focusing on high temperature materials and high temperature corrosion. He is teaching both graduate and post graduate students within the area of oxidation and high temperature corrosion.
